Revisions to Technical Specifications:

SECTION 6, ENGINEERING SYSTEM REQUIREMENTS

B10, SUPERSTRUCTURE

ADD the following sentence at the end of the paragraph entitled, "ANTI-TERRORISM:"

"Level of Protection (LOP) is defined under UFC 4-020-01, *Security Engineering Facility Planning Manual*. This document is no longer available from public domains. Base design on LOW Level of Protection (LLOP) in complying with UFC 4-023-03, *Design of Buildings to Resist Progressive Collapse*."

NOTE: This revises previous instruction contained in Amendment 0003.

The following inquires are incorporated by this Amendment:

1. Amendment 3, pages 34, 39, 49 and 54 mention the use of steam. Page 3 of the RFP Project Program, Project Description paragraph says "steam is not available for use in heating". Is the use of steam for heating required for this project?

Response:

Use the Steam: Bidder inquires as to availability of Steam. Steam is not available for the use on this project. The pages cited by the inquiry referenced a Public Works Department form to be used IF steam were available.

2. Can the project bid date be pushed to May 4, 2007? Amendment 3 (70 pages) requires us to revise our design for several design disciplines. We distributed our design prior to the release of Amendment 3. We need time to revise the design, redistribute to the contractors and give them time to estimate their proposals. Giving us this time will help clear-up gray area's, refine the project scope and offer some cost savings.

Response:

Postponement of Bid Due Date: The bidding date remains the same.
