**SUBMISSION OF PROPOSALS:** Revised Cost Proposals are due to the Contracting Office on 29 Sept 10 at 10:00am.

**Incorporate Addendum No. 2**

ADDENDUM NO: 2

PROJECT NO. & TITLE: Project MUHJ 10-7009 Construct Upgraded Generator, F. 768

The following changes shall be incorporated into and become part of the contract documents.

1. Statement Of Work:
  - a. Replace Paragraph **1.2.2** with the following;

**Repair by replacement 600kW Generator, ATS and Connecting Equipment** - Includes design and specifications for the installation of a 600kW generator, ATS, and all other necessary civil, mechanical, electrical infrastructure work, and any Communication or EMCS interfaces and related appurtenances. The manufacturer of the equipment shall be approved by 633 CES. The acceptable generator manufacturers are the following listed in order of preference.

- 1) Cummins
- 2) Caterpillar
- 3) Kohler
- 4) Or pre-approved Government acceptable equivalent, approved prior to submission of proposals.

The proposal submission must identify the generator manufacturer you will utilize to be technically acceptable.

Repair and upgrading of the existing medium voltage transformer and low voltage distribution are being accomplished under a separate contract. The design of this new equipment will require the ATS to be sized for a 1200A Bus feeder.

The Contractor is eligible for GSA pricing through Cummins Power Generation, Inc. and is required to request permission from the Contracting officer to use this discount when providing the cost proposal.
